

Visit the practice of Drs. Tarantola and Hwang for a beautiful, youthful-looking face as well as beautiful, healthy smile

Great things come in **packages** - Customize your selections to create your ideal package

Brighten–Volumize–Smooth–Straighten

Brighten Package

Teeth Polishing – This is the most basic of services. Our hygienist will simply polish and remove surface stains from your teeth. (this is not a dental cleaning or periodontal treatment...it is simply to help brighten your smile). □

Whitening - Whatever the reason, tooth whitening isn't just for the movie stars, and it isn't just for one day. Many people have had their teeth whitened, and probably millions more are thinking about it. The desire for a brighter smile with whiter teeth is very strong, and tooth whitening safely lightens the color of the teeth, lasting for up to five years. The most effective and safest method of tooth bleaching is dentist-supervised. □

Veneers - Porcelain veneers are thin shells of ceramic material, which are bonded to the front of teeth. This procedure can be the ideal choice for improving the appearance of the front teeth. Porcelain veneers are placed to mask discolorations, to brighten teeth, and to improve a smile. Highly resistant to permanent staining from coffee, tea, or even cigarette smoking, the wafer-thin porcelain veneers can achieve a tenacious bond to the tooth, resulting in an esthetically pleasing naturalness that is unsurpassed by other restorative options. □

Crowns – Crowns accomplish the same thing as veneers and are used when the teeth may be weaker and more of the tooth needs to be protected with porcelain. □

Bonding - With this option, one of the newer, highly esthetic composite materials are bonded directly to the tooth enamel, sculpted, shaped, polished and refined for a beautiful look. It is done in one appointment and works well when the teeth need minor to moderate changes.

Volumize Package

Volumize Package – Restylane and Perlane dermal fillers provide rejuvenating, natural looking, more youthful beauty by adding volume to the deeper lines on your face. It is a well tolerated and non-surgical procedure (usually last about 6 months).

Smooth Package (with facial aesthetic treatments)

Beautiful Image's Anti_aging Facial – non surgical face-lift that mimics the body's natural microcurrents via acupressure points to stimulate collagen production. Recommendation for best results is a series of 10 treatments. To maintain optimal results, follow up treatment every 4 – 6 weeks is recommended. Please see brochure for our prices.

Waxing

Mini-facial

European Deep Cleaning

Acne Facial

Vitamin C Anti-Aging Facial

Microdermabrasion

Non-Chemical Peel

Chemical (Glycolic) Peels

Straighten Package

Invisalign® is easy to use removable clear aligners. You will wear each set of "aligners" for about 2 weeks, removing them only to eat, drink, brush, and floss. Your teeth will move gradually each week. You will only need to visit the office every 6-8 weeks! The average treatment time is 6-15 months and the average number of "aligners" is between 18 and 30

Veneers, Crowns, Bonding can be designed to give the illusion of straighter teeth without orthodontics.

Refer-A-Friend

Share the benefits. 20% savings off an entire visit for you and your referred friend! (Applies to "SMOOTH" package only. Call us for incentives/rewards for referrals for other services.)
